

Hall Road Lane Closure

Hall Road Lane Closure

The City of Alcoa Public Works and Engineering Department announced today the closure of portions of Hall Road beginning at 8:30 a.m., Tuesday, May 15, 2007. This will allow CSX to complete repairs to smooth the Hall Road crossing in both the northbound and southbound lanes.

The crossing is located between Davies and Bessemer Streets. Only one lane at a time will be closed in either direction to allow traffic to flow through the area. If necessary, work will continue on Thursday, May 17, 2007.

Motorists traveling through the area may want to choose an alternate route around the construction or allow a few extra minutes to reach their destination. Motorists are reminded to exercise caution in the construction area.
