

Waterbody ID	Impacted Waterbody	Cause/TMDL Priority	Pollutant Source	Comments
TN06010201026_0400	Pistol Creek	Loss of biological integrity due to siltation/NA Escherichia coli/NA	Discharges from MS4 area	Category 4a. EPA approved siltation and pathogen TMDL's for the known pollutants on 2/1/06 and 11/21/05
TN0610201026_0410	Springfield Branch	Nitrate + Nitrite/L Loss of biological integrity due to siltation/NA Escherichia coli/H	Discharges from MS4 area	Category 5. (One or more uses impaired.) TMDL's needed. EPA approved a siltation TMDL that addresses some of the known pollutants on 2/1/06.
TN06010201026_0430	Culton Creek	Nitrate + Nitrite/L Loss of biological integrity due to siltation/NA Escherichia coli/NA	Discharges from MS4 area	Category 5. (one or more uses impaired.) TMDL needed. EPA approved a pathogen and siltation/habitat TMDL's that address some of the known pollutants on 11/21/05 and 2/1/06. (This segment included in _0431TMDL.)
TN06010201026_0500	Russell Branch	PCB's/L Loss of biological integrity due to siltation/NA	Contaminated Sediment, RCRA Hazardous Waste, Discharges from MS4	Category 5. (One or more uses impaired.) TMDL needed. EPA approved a siltation TMDL that addresses some of the know pollutants on 2/1/06
TN06010201983_1000	Polecat Creek	Alteration in stream-side or littoral vegetative cover/NA Loss of biological integrity due to siltation/NA Escherichia coli	Discharges from MS4 area Channelization	Category 5. (one or more uses impaired.) TMDL needed. EPA has approved siltation/habitat TMDL that address some of the known pollutants on 2/1/06
TN060201026_0431	Laural Bank Branch (from Middlesettlements RD to Culton Creek	Sedimentation/Siltation	Municipal (Urbanized High Density Area)	Sedimentation This has been added due to annexation.
