STORM WATER BEST MANAGEMENT PRACTICES FOR HOTSPOTS

RESTAURANT POLLUTION PREVENTION

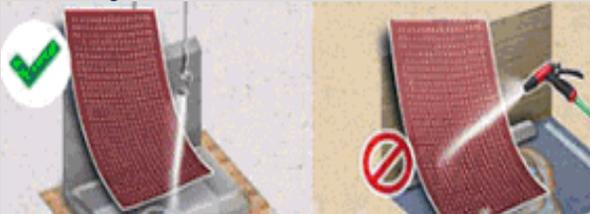

Keep trash & recycle areas CLEAN.
-No litter -Lids closed -No leaks

Dry Sweep all areas around restaurant.

Only clean floor mats indoors

Dump all wash water indoors

VEHICLE REPAIR POLLUTION PREVENTION

Clean up all spills immediately using a floor dry kit. DO NOT mop with water.

Recycle oil. DO NOT pour into sinks or floor drains

Car washing and equipment should be done in an enclosed structure that drains into the sanitary sewer.

Waste oil/antifreeze should be stored in an approved tank 50 feet from any drain.

WHAT WE DO MATTERS

Keep cardboard flattened and stacked under a covered area.

We are the solution to pollution

REMEMBER: Only Rain Down the Storm Drain

Maryville, TN 37804

Re: Hotspot Training

Dear Manager:

The City of Alcoa is covered by a National Pollutant Discharge Elimination System (NPDES) Permit issued by the State of Tennessee Department of Environment and Conservation. The City is permitted as a Small Municipal Separate Storm Sewer System (MS4), which requires the city to provide public education and outreach about stormwater pollution prevention.

You have received this letter because one specific area of education is the city's annual Hotspot training. Hotspots are land uses that have a greater potential of causing pollutants to enter the stormwater system. As an MS4 we refer to these pollutants as illicit discharges. In the past we have offered Hotspot training to local businesses to inform them of the causes and consequences of illicit discharges.

Due to low turnout at the hosted training sessions we have conducted with the help of Keep Blount Beautiful, City of Maryville, and Blount County Stormwater, the City of Alcoa is sending this letter and flyer out as an alternative. This is also an invitation for you to have staff bring this training to your place of business at your convenience. Please contact the office at the number below to schedule an appointment or if you have any other questions.

Sincerely,

Roger Fields

EXCELLENCE IN SERVICE - QUALITY OF LIFE

www.cityofalcoa-tn.gov

How did we get here

Water Pollution Control Act 1948

Clean Water Act of 1972 (NPDES)

- Gave EPA authority to regulate discharges into waters of the US
- Created Pollution Control programs
- Addressed point sources
- Funded sewer plant construction
- Started planning for non-point source pollution

Two Phases of MS4 (Municipal Separate Storm Sewer System)

Phase I = 1990 - mid 90s

- 100K plus cities and industrial sites
- > 5 acres

Phase II = 1999 - inacted 2003

Smaller cities and urbanized

areas of counties with a

population 1,000 per square mile

We are now in our 3rd permit cycle.

2021 = will be next

What ms4 permit covers

- 1) Public Outreach and Education
- 2) Public Involvement / Participation
- 3) Illicit discharge detection and Elimination
- 4) Construction site Stormwater runoff
Pollution Control - EPSC
- 5) Permanent stormwater management
at new developments and
redevelopments
- 6) Good house keeping

Our Streams

- Pistol Creek
- Springfield Branch
- Chilton Creek
- Russell Branch
- Polecat Creek
- Little River

Some Inspections

- Hot spots
- Stream surveys
- Fly screening

Re: Residential Pool Backwash and draining

Dear Property owner:

It was recently brought to my attention that some pool owners may be committing a violation of our Stormwater Management Ordinance without even knowing it. Discharging pool water and/or pool backwash water is defined as an illicit discharge in section 16-508 of the Stormwater Management Ordinance for the City of Alcoa. Civil penalties can be issued for this illicit discharge. The penalty can range from \$50.00 to \$5,000.00 per day, per violation. If the pool water and/or pool back wash water is dechlorinated it is not considered an illicit discharge.

I have also included a homeowner's guide that highlights a few easy practices that we can all do around the house. These practices can go along way to help keep and even improve the water quality in the City of Alcoa. If you have any questions, please call me at 865-380-4800.

Sincerely,

Roger Fields
Stormwater Coordinator

City of Alcoa
725 Universal Street
Alcoa, TN 37701

Thank you for your interest in and support of the Tennessee Stormwater Association ([TNSA](http://tnstormwater.org)). Our mission is to provide opportunities for stormwater professionals in Tennessee to network and to exchange information and services in order to achieve permit compliance and to protect water quality.

Please consider an annual membership with TNSA. The membership dues for a small MS4 are \$300.00 for the 2019-2020 fiscal year (July 1, 2019 – June 30, 2020).

Thank you very much for your support and consideration.

Charlene DeSha
